

Course in Arctic Field Ecology

BIO 332H (Biology Field Research)

24 July – 7 August 2025 (dates to be confirmed)

Explore northern ecosystems at the edge of the Arctic! UTM will be offering a 0.5 credit 2-week summer field course at the Churchill Northern Studies Centre (<https://churchillscience.ca/>) near Churchill, Manitoba, on Hudson Bay.

Learn about tundra, treeline, and boreal forest habitats, while immersed in arctic and subarctic landscapes, vegetation, and wildlife.

Estimated costs are \$1300 (room & board) plus regular course fee and travel expenses.

Application deadline: spring 2025
Watch for updates!

Please contact the lead instructor, Prof. P.M. Kotanen (peter.kotanen@utoronto.ca) with any questions.
